Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 50-56, drawn to method of playing a card game, classified in class 463, subclass 11.
 - II. Claims 1-49, drawn to distributing playing cards, classified in class 463, subclass 22.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions Group I and Group II are related as combination and subcombination.

Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the method of playing a card game of the combination of Group I does not requires a specific method of distributing playing cards of the subcombination of Group II. The subcombination has separate utility such as distributing playing cards to a player.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. Should applicant elects the subcombination Group II, applicant is further required to elect one of the following species:

Species 1: Fig. 4 (claims 32-37 and 41-45) drawn to card distribution device with a receiver.

Species 2: Fig. 6 (claims 38-40) drawn to card distribution device with an eraser.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1-31 and 46-49 are generic.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
